| <b>Other information</b>   | Palm and back covered with dots                  |                |       |

## INSTRUCTION FOR USE AND STORAGE

**Instructions for use**

It is recommended to pre-test the gloves, as the actual conditions of use may differ from those of the "EC" tests. Performance levels are only guaranteed on the palm of the glove when new.

Wear gloves on dry, clean hands.

Do not use gloves in contact with a chemical product for longer than the measured permeation time.

In use with a dangerous liquid, turn the cuff edge over to prevent drops from falling on the arm.

**Storage instructions**

Keep gloves away from light, moisture and sources of heat.

**Washing instructions**

The washing of the gloves varies according to the materials of the product. See the recommendations on the package leaflet.
